Press Note

It has been reported in some sections of media that on instructions of the Government, payments of bills, other than salary bills, are not being entertained by the Treasuries.

This is factually not correct. There are no instructions/ directions from the Government in Finance Department to this effect. The mater has been clarified today to all DM & Collectors and other concerned officials in this regard. It is reiterated here that all the Treasuries shall continue to function in a normal manner and all Bill presented before the Treasuries shall continue to be settled as before.
